

NEW WIRELESS BT EARPIECE WITH PTT

OPERATION CRITICAL WIRELESS ACCESSORY PORTFOLIO

The EP900w, wireless Bluetooth earpiece with Push-To-Talk, is the latest addition to the Operation Critical Wireless accessory portfolio. Small and reliable, the earpiece offers a flexible audio solution that accommodates various ear shapes, sizes and wearing positions. Easy to adjust with its ergonomic design and using the 4.2/LE Bluetooth standard, the EP900w covers a standard 8-hour work shift supported by such functions as up and down volume controls and a multi-functional button; its audio and visual prompts guide you when pairing or checking the battery status. Thanks to the Motorola Solutions fast PTT protocol and a dedicated PTT button, this BT earpiece will guarantee that your audio communications are reliable, crisp and clear allowing you to focus on the task at hand.
